About us

Ecosafe is a leading design-build contractor. Ecosafe has successfully designed and accomplished top quality urnkey projects allowing it to develop long-term trusting relationships with a diverse group of clients from private and public sector this was all achieved through: Clear strategic vision, vast experience and our professional and talented team. we always in construction market in Saudi Arabia, strive for excellence in our work by providing qualified workers with experience, provide the necessary and modern equipments, provide high quality materials and strictly to work and appointments to gain the trust of the client where the good reputation is the most important investment.

Our mission

Because of competition in construction market in Saudi Arabia, we always strive for excellence in our work by providing qualified workers with experience, provide the necessary and modern equipments, provide high quality materials and strictly to work and appointments to gain the trust of the client where the good reputation is the most important investment.

Our values

- Customer centric: we put our customers at the center of our focus and initiatives.
- Continuous development: start from where others have ended
- Teamwork: we actively share information and ideas, enthusiastically.

Our employees are our most valuable resource, and do whatever it takes for their continues training, development and motivation.

- Straight with ourselves and others.

Our Engineering Services

The background features several architectural wireframe structures, possibly representing building facades or complex engineering designs. These structures are composed of a dense network of thin lines forming a grid-like pattern. The colors of the wireframes vary, with some appearing in shades of blue, green, and orange, while others are in grayscale. The structures are positioned at various angles, creating a sense of depth and perspective.
